

MULLIES MARINE COMPETITION RULES

Competition Rules

- This is a total length measurement competition. Entrants may submit a photo of any of the nominated legal sized fish on a brag mat or similar measuring device. You may only submit 1 fish per species, if you submit multiples of one species the larger measurement will count. The angler with the longest total length (CM) accrued will be the winner. Measurements will be rounded down to the nearest CM.
- The photo must be taken of the fish on the competition brag mat supplied in your entry pack or if too long for the mat a clear image on another measuring device with the mat in the image will be accepted. Fish are to be measured from the tip of the nose to the tip of the tail. Squid must be measured with a total hood length measurement. Photos must be clear and the length visible otherwise they may be denied at the judge's discretion.
- Entry packs are to be collected from Mullies Marine or posted at the entrant's expense.
- Submissions are to be recorded using the Track my fish App
- Photos must be submitted within the competition times stated below.
